Oladipo Ajibawo, MBA, MSc, SMC

Project and Delivery Manager | Agile & Scrum | Prince2 | Data
Analyst | IT & Digital Transformation | Data-Driven Innovation | IT
Governance, Risk & Compliance

Derby, England, United Kingdom

Summary

Strategic Project Manager | £100M+ Project Oversight | Telecoms |
AI-Driven Operations

Experienced and certified Project Manager with a proven track record of delivering complex projects across digital transformation, IT infrastructure, Telecoms and business change. Skilled in Agile and Waterfall methodologies, with expertise in stakeholder management, risk mitigation, and project lifecycle governance.

I have successfully led cross-functional teams through strategic initiatives, using tools like JIRA, MS Project, Smartsheet, and Confluence. My experience spans budget management, resource planning, business case development, and executive reporting, ensuring alignment with business goals and customer expectations.

Skilled in both Agile, Waterfall, and PRINCE2 methodologies. I apply structured frameworks to ensure timely, cost-effective, and high-quality project outcomes. I am passionate about leveraging technology and data to solve problems, optimise processes, and enhance service delivery. With a proactive and collaborative approach, I thrive in fast-paced environments and am committed to delivering value through strategic project execution.

Strategic problem-solver with £50M+ programme experience across telecoms, energy, and infrastructure. Delivered smart grid, solar, BTS builds, AI-powered maintenance, and Acsys security projects.

Specialties:

Program and Project Management | PRINCE2, Kanban, Lean, and
Waterfall Methodologies | Cloud Migration and Digital Transformation

| Risk and Change Management | Operations Management | Policy and Process Optimization | Process Improvement and Development | Customer Service Management | Wireless Telecommunication Infrastructure | Service Delivery | Conflict Resolution | Team Building and Leadership | Continuous Improvement | Process Management | Risk and Issue Mitigation | Corporate Management | Data Analytics and Reporting | Technology Adoption and Innovation | Education and Training | Stakeholder Engagement | Budget Management | Project Lifecycle | Strategic Planning | Cross-Functional Collaboration | Business Case Development | Executive Reporting | Resource Allocation | Project Governance | IT Project Management | Vendor Management | PMO | Capacity Planning | Quality Assurance | Milestone Tracking | Communication Planning | Scheduling and Timeline Management | Scope Management | Performance Optimization |

Experience

American Tower Africa

8 years 2 months

Project Manager

May 2021 - April 2025 (4 years)

Lagos

Led the full lifecycle delivery of 300+ telecom site build projects and over 1,000 smart grid infrastructure deployments, collectively valued at over \$5.5M, using a hybrid delivery model that combined Waterfall governance with Agile practices ; Achieved a 98% on-time delivery rate and reduced energy OPEX by 22% through strategic rollout of solar–Li-ion hybrid systems.

Directed cross-functional teams across engineering, procurement, and construction, executing nationwide smart energy monitoring and automation rollouts; maintained CAPEX within 5% of baseline and increased uptime across tower assets to 99.5%.

Utilized Smartsheet to manage project schedules, work breakdown structures (WBS), risk registers, and live dashboards, enabling milestone-driven execution, improved stakeholder transparency, and timely approvals for projects ranging from \$600K to \$1.2M.

Project Coordinator, PMO

September 2019 - October 2021 (2 years 2 months)

Lagos State, Nigeria

Coordinated nationwide telecom infrastructure programs involving 1,500+ tower upgrades and 200+ new site builds, streamlining schedules, resource allocation, and stakeholder reporting under PMO governance; accelerated site readiness by 12% through proactive milestone tracking.

Led end-to-end delivery workflow reviews with Promapp (Nintex process mapping), uncovering approval bottlenecks and cross-functional delays; established governance control gates that increased delivery efficiency by 18%, reduced rework cycles by 25%, and enhanced stakeholder visibility across functions

Led quarterly efficiency audits across solar-hybrid, DG power, and site build projects in collaboration with Compliance; uncovered 9% energy loss across select assets and validated ROI on smart grid deployments, contributing to a 15% reduction in energy OPEX.

Managed vendor performance appraisals across engineering and EPC partners, boosting SLA compliance from 82% to 94% and reducing vendor-related delays by 20% through structured evaluations and feedback loops.

Designed and maintained real-time dashboards in Smartsheet and Excel, consolidating data from 40+ active projects to monitor cost, risk, and schedule; generated Power BI reports that reduced PMO reporting time by 35% and improved executive decision-making visibility.

Network Analyst

March 2017 - August 2019 (2 years 6 months)

Lagos State, Nigeria

Monitored and maintained network infrastructure across 6+ regional sites, ensuring 99.8% uptime through proactive fault detection, performance tuning, and escalation management using Galooli Panorama and Acsys remote access control systems.

Supported data management and analysis for network performance metrics using Excel, Power BI, and Smartsheet; enabled trend visualization and executive reporting that improved throughput and reduced latency by 15%.

Collaborated with cross-functional teams to investigate recurring faults and enhance passive telecom infrastructure, including remote monitoring of diesel generators, battery banks, and hybrid power systems; improved energy efficiency and reduced site-level outages by 20%.

Developed and updated technical documentation, configuration logs, and incident reports using SharePoint, Visio, and Confluence; standardized knowledge sharing across the Network Operations Center (NOC) and improved operational transparency for internal audits and stakeholder reviews

SCENIC INTERNATIONAL GROUP LIMITED

IT Project Manager

June 2014 - September 2016 (2 years 4 months)

London, England, United Kingdom

Delivered over £500k+ in IT infrastructure and SaaS project portfolios, including NetSuite ERP rollouts, Boomi integrations, and Azure/Power BI reporting systems; ensured 100% compliance with financial regulations and ISO 27001 standards across multi-site environments.

Led cross-functional Agile teams (10–15 members) to implement enterprise digital transformation and systems integration projects (Jira, Microsoft 365, MuleSoft, telephony, CRM); achieved 30% improvement in operational efficiency and user adoption rates.

Managed multiple concurrent IT projects (5–7 workstreams) across infrastructure, cloud migration, and data analytics using PRINCE2 and hybrid methodologies; maintained 97% on-time delivery rate while resolving over 85% of critical risks pre-launch.

Orchestrated end-to-end project governance, stakeholder engagement, and vendor management, supporting project scoping, budgeting (£300K–£2.5M), and post-go-live support across internal platforms and third-party systems.

University of Sunderland

Student Support Assistant

December 2014 - January 2015 (2 months)

Sunderland, England, United Kingdom

Collected and updated data for over 500 graduates via outbound calls, achieving a 97% response rate on the Destination of Leavers from Higher Education (DLHE) survey within set deadlines.

Maintained and updated confidential student records using Microsoft Access and CRM tools, ensuring 100% accuracy and GDPR compliance.

Entered, organized, and managed large datasets in Microsoft Access to support graduate outcomes reporting and institutional compliance.

Delivered results in a fast-paced, target-driven environment, ensuring timely and efficient student data collection for regulatory reporting.

Collaborated with the student support team to streamline data entry processes and improve record-keeping efficiency across departments.

National Youth Service Corps

Physics & Computer Science Instructor

October 2012 - October 2013 (1 year 1 month)

Ilorin, Kwara State, Nigeria

Delivered Physics and Computer Science lessons to over 200 secondary school students, developing lesson plans, assessments, and practical lab sessions aligned with national curriculum standards.

Provided technical support and coaching to students on computer literacy, including Microsoft Office tools, basic programming, and internet safety.

Mentored students in academic development and career guidance, fostering critical thinking, public speaking, and problem-solving skills.

Lafarge Africa Plc

Electrical Engineer

June 2010 - December 2010 (7 months)

Ewekoro, Ogun State, Nigeria

Assisted in the planning and execution of electrical maintenance projects across cement production lines, collaborating with multidisciplinary teams to reduce downtime by 20% and support continuous plant operations.

Supported the installation and testing of high-voltage equipment, control panels, and motor drives, gaining hands-on experience in industrial automation and electrical systems troubleshooting aligned with HSE and ISO 9001 standards.

Participated in root cause analysis (RCA) and routine inspections to identify electrical faults and optimize preventive maintenance schedules, improving asset reliability and contributing to project documentation.

Engaged with senior engineers on technical reporting, energy consumption analysis, and power distribution monitoring, reinforcing project tracking, data-driven decision-making, and stakeholder communication skills.

Education

London School of Commerce, London, United Kingdom
Master of Business Administration - MBA, Business Administration
(International Business) · (August 2015 - November 2016)

University of Sunderland
Master of Science - MS, Telecommunications Engineering · (February 2014 - June 2015)

University of Ilorin
Bachelor of Engineering - BE, Electrical and Electronics
Engineering · (September 2007 - July 2012)
